

HOME ENERGY IMPROVEMENT BILL CREDIT VOUCHER

Applies to qualifying purchases made between Oct 1, 2009 and Sept 30, 2010.

Please print information that corresponds to your CL&W account.

Name: _____

Home Address: _____

Account Number: _____

How it works:

- 1) If you are a residential electric customer of Cedarburg Light & Water, you are eligible for **one** of the bill credits shown on the reverse side. The goal of this program is to assist you in making energy saving decisions and improvements for your home. Only certain improvements are included on this voucher, and this voucher may change from year to year. This voucher is not intended to cover all possible energy efficiency improvements.
- 2) Purchases made between Oct 1, 2009 and Sept 30, 2010 qualify for the bill credit.
- 3) Once you've made a purchase, please indicate your selection on the reverse side of this voucher and sign it to confirm that your purchase was made to assist in saving energy at your Cedarburg home.
- 4) Return your completed voucher along with a clearly itemized receipt. We must receive this information no later than October 15, 2010 and you must be a customer of CL&W when we receive your voucher. Please send this information to:

Cedarburg Light & Water Utility
Bill Credit Voucher
PO Box 767
Cedarburg, WI 53012-0767
- 5) We will apply a credit to your CL&W account within two weeks. The credit will appear on your bill in the "Previous Charges and Payments" area. Limit one bill credit per residential electric customer.

Additional Information:

- Limit one voucher per residential electric customer. If your name is on more than one residential electric bill, you are eligible for only one bill credit, not one for every account.
- You may choose to make your purchase from any store, business, manufacturer or contractor. CL&W does not endorse or prefer one product or service provider over another.
- If you spend less than the maximum bill credit shown on the reverse side, your credit will be for the amount of your purchase. Sales tax may be included.
- Funding for this program is made possible through the Commitment to Community Program. The CTC Program is required by state law, and Cedarburg Light & Water, being a community-owned utility, has obtained permission from the State to return these funds to local customers through a variety of conservation incentives such as this bill credit voucher. Other conservation incentives are also available — see our website at www.cedarburglightandwater.com or give us a call for details.
- Final approval of your eligibility for the bill credit selected will be at the sole discretion of Cedarburg Light & Water Utility.
- If conservation product is purchased at Beyer's True Value in Cedarburg and the purchase price is reduced by an "Energy Fair Gift Certificate," the amount of the gift certificate reduction is not eligible for a bill credit through this voucher.
- In addition to the bill credit of your choice, you may be eligible for a rebate through our participation in Focus on Energy, or you may be eligible for a federal tax credit. FOE rebates and tax credits do not effect the value of your bill credit.

Over for Bill
Credit Options

Please follow these steps to complete this bill credit voucher:

- 1) Place an "X" on the list below by the energy-saving product or service you purchased.
- 2) Sign your name and fill in the date at the bottom.
- 3) Attach an original, clearly itemized receipt, dated between Oct 1, 2009 and Sept 30, 2010. On the receipt, circle the product or service that corresponds with the bill credit you are requesting.
- 4) Return this bill credit voucher and your receipt to Cedarburg Light & Water by October 15, 2010. (See mailing instructions on reverse side — or drop it off, we're just two blocks east of Olsen's Piggly Wiggly.)

REMEMBER THAT THESE CREDITS ARE IN ADDITION TO REBATES YOU MAY ALREADY BE ELIGIBLE FOR THROUGH OUR PARTICIPATION IN FOCUS ON ENERGY'S CONSERVATION PROGRAM.
